

## **EDUCATION & WORKFORCE DEVELOPMENT**

---

Henry Ford once said that “anyone who stops learning is old, whether at twenty or eighty,” and our Education & Workforce Development Committee couldn’t agree more. There is simply no success without ongoing education. We need to continuously provide options for education and/or workforce development. In an emerging community like Miami-Dade, one with a significant population of first- and second-generation immigrants, there is no faster path to success. Additionally, as technological disruption continues to alter the work-world landscape, it is essential to understand and prepare to meet the needs of the emerging job market.

### **MISSION**

The Education & Workforce Committee supports high quality education for all. This includes development of talent and retention of talent in South Florida. The Committee seeks to build relationships with professionals and businesses in order to advocate, and seek funding for education causes, as well as seeking to implement these causes to benefit the economic development of our ever-evolving community.
